

Graduation held in Belgium for CDMPs and CRTWCs

Taken from LinkedIn: Congratulations to the 24 graduates of the Disability Management course and CDMPs and CRTWCs! Their expertise and support are essential to help people with disabilities get back to work.

The National Institute for Health & Disability Insurance (NIHDI) of Belgium organised a graduation ceremony in Brussels on May 15, 2023, chaired by Director General, Mrs. Clara Arbesu. Twenty four new individuals were certified as Return to Work Coordinators and Disability Management Professionals.

Belgium, via NIHDI, has held the NIDMAR licence since 2014 and launched the curriculum in 2016. Today, more than 250 participants have taken the exam. Although not everyone takes part in the exam, we are satisfied to see that the number of participants in the curriculum is growing each year, with currently 163 participants in 2023 (a new record).

This course is organized by a "consortium", including private and public organizations, led by the University of Leuven. Our participants come from various institutions (private or public companies). The exam is delegated to the federal administration's selection office.
